

Who is Dhairya N. Oza???

Mr. Oza's Ideology

“Among my morals and ethics, I have this one rule: never say anything negative about something that you can't improve or create by yourself.

Instead of enhance, redefine or create it as per your own vision.”

Introduction

Mr. Dhairya N. Oza, the **Founder & Managing Director of [Oza Motorsports Pvt. Ltd.](#) & [TFS Universe](#)** is also widely recognized as [Soochh](#), [The Flying Shirt](#), and [Mr. Oza](#), is an **exceptional Polymath** whose **Story, Journey & Ideology** challenges the belief that a person can only master one profession. His primary interests are in the automotive and music industries. He is a visionary entrepreneur, inventor, researcher, engineer, strategist, automotive journalist, influencer, independent artist, and a business leader. With expertise spanning **over 30+ professional domains across 6 major industries**, he combines technical knowledge, creativity, business strategy, and innovation to build impactful ventures and drive industry growth.

With **more than a decade of multidisciplinary professional experience**. Mr. Oza has gained **60+ certifications** and **awards recognizing excellence**, his commitment to continuous learning and professional development reflects his pursuit of mastery across multiple disciplines. The knowledge acquired through these achievements has evolved into **68 professional skills** and spanning in multiple economic sectors: engineering, business, marketing, media, e-commerce, and music reflect Mr. Oza's exceptional versatility which defines him **as a true and a modern-day Polymath**. His strong professional foundation is supported by specialized education in Automotive Engineering, advanced IPR and entrepreneurship training, internships with leading automotive brands, and continuous industry learning. Throughout his career, he has registered **9 Intellectual Property Rights (IPRs)**, **secured 6 Government Innovation**

Grants, collaborated with leading organizations and universities, and earned recognition for combining engineering excellence with strategic business leadership.

Across every industry and niche, Mr. Oza has consistently transformed ambitious ideas into measurable achievements. As the **Founder & Managing Director of [Oza Motorsports Pvt. Ltd.](#)**, he established a high-performance automotive designing & manufacturing company, led advanced R&D programs, designed and registered innovative automotive technologies, secured funding from organizations including **ICSII, GUSEC, SUSEC, and i-Hub Gujarat**, and received an international relocation offer from the **Belgium Government**. In premium automotive sales, he rose from a teenage superbike broker to becoming one and only **Marshal of BMW Motorrad Gujarat region and one of the top-performing Sales Executives**, delivering **69 bookings, 64 retail deliveries, and an average customer satisfaction score of 9.8 out of 10**. Through **TFS** and the **TFS Universe**, he built a diversified business ecosystem encompassing media production, filmmaking, digital marketing, consulting, and e-commerce. He has personally interviewed **400+ candidates** & collaborated with more than **25 universities**, and mentored more than **50 students** to ensure and prepare the next generation of professionals. As the founder of [BuyItOnline](#), he successfully developed and managed a business with **780+ products** across multiple marketplaces, while under his artistic identity **Soochh**, he became an internationally distributed independent singer-songwriter, (singer, lyricist & composer) music director, actor, and filmmaker. **Soochh** with his debut [Album MANZIL](#) has already made its way to **World TV Premiere, Radio networks, National Television** (with repeated streaming 6-18 times in a day), it's also streaming on more than **150 digital platforms & 1,250+ commercial outlets**. His extraordinary portfolio of innovation, leadership, technical expertise, creativity, entrepreneurship, mentorship, and global recognition has established him as a true and a modern-day polymath whose impact extends far beyond traditional professional boundaries. Who quotes and believes in:

“Among my morals and ethics, I have this one rule: never say anything negative about something that you can’t improve or create by yourself. Instead of enhance, redefine or create it as per your own vision.”

Industries Mr. Oza actively participated in:

His primary interest lies in **Automotive & Music Industry**. Blending strategic thinking to increase his network & gain the other advantages, his secondary interest also lies in the industry of **digital creation** with hands-on execution, his broader impact extends into **sales & marketing, e-commerce & dropshipping & Influencing** where he successfully navigates modern digital markets.

1. Automotive Industry
2. Sales & Marketing Industry
3. Influencer Industry
4. Content Creation Industry
5. E-commerce & Dropshipping Industry
6. Music Industry

Various Niche & Group of Niches Mr. Oza has been working in:

Group - A:

- **Primary** - Automotive Industry

Title - The success story of Founder & Managing Director of [Oza Motorsports Pvt. Ltd.](#)

Explanation - The foundation as an Automotive Engineer towards founding and building Oza Motorsports.

Niches:

- Automotive Engineer
- Design Engineer
- Interior Designer
- Scientist

- Head of Research & Development Department
- Entrepreneur
- Founder & Managing Director

- **The Foundation as an Engineer (2014 - 2017):**

The journey began in Ahmedabad during his primary schooling at **Som-Lalit School**, where Mr. Oza started getting curious about **High performance Supercars & Superbikes** and so he started pursuing his interest in the Automotive world on the Internet. Later he finished his **SSC** (10th Standard) in 2014. Due to his passion in **Machines & Vehicles** he chose a specialized technical path instead of a traditional high school route. He then moved to Baroda to study for a **Diploma in Automobile Engineering at Parul University**.

He was an **Hyperactive student** who liked to participate in multiple activities & opportunities. From the very beginning he had a daily habit to research on various topics of **Automotive engineering**. Additionally he also took multiple internships from **multiple Automotive giants such as Mercedes - benz, MV Agusta, Benelli, Hyosung & Honda**. This gave him a deep understanding of **Internal Combustion (IC) Engines & Modern Automotive Technologies**. However while pursuing **Internship at MV Agusta, Benelli & Hyosung** he found that his inclination was now moving slightly more towards the Superbikes.

- **Advanced Research & Navigating his Innovations and his Startup (2017 - 2026):**

In 2017 Mr. Oza returned to Ahmedabad for a **B.Tech in Automobile Engineering at Indus University**, where he graduated in 2020. During these years, he shifted focus from learning to creating the **Standard & Innovative High performance IC Engines & its Technologies**.

During his Graduation Period he also got expertise in space planning and designing in the field of **Interior designing** by designing his **Studio** (a room of his personal interest) by himself. He came up with a theme of the Interior considering his interest in automotive vehicles, music & mountains. He used Multiple custom paints, artworks, Actual sculptures, Motorcycles & the parts of motorcycles in his designs which eventually became a homely vibe for him. This

later in **2025** helped him to design another Office & Studio for both of his companies.

In 2017, Mr. Oza began his journey as a **Designing Engineer** after which he designed & developed his first ever Motorcycle called the **SE1**. **SE1** was a **Hybrid design of Bobber & Brat Style Motorcycles which itself was an innovation**. Apart from this he also gave a Rat bite look to the Motorcycle. Mr. Oza later named this distinctive design philosophy "**BobArt**" and secured its intellectual property by registering the design under the **Designs Act, 2000**

*Mr. Oza conceptualized and engineered the [V.ODNE1s High-Performance Engine Platform](#), designing multiple conventional and innovative **V-Series** engine architectures. Through this platform, he introduced a **proprietary design methodology that unlocked V-engine configurations in multiples of three (3, 6, 9, 12, 15, 18...)** which significantly expanded the design possibilities **beyond conventional V-engine architecture**.*

*Under Mr. Oza's leadership, guidance, and technical supervision, **Oza Motorsports** developed the proprietary [LTB Valve Technology—a Camless Valve Mechanism](#)—positioning the company among **only two automotive organizations globally to own this advanced valve actuation technology**.*

By 2018, Mr. Oza also started working as a Scientist as he actively started working on his own **innovations in IC engines & its technologies**. Later for which he became one of the few students (from his college) to get an **Government grant (from the Indian Government)** Under the **SSIP** (Student Startup and Innovation Policy) through **ICSII** (Indus Center of Startups Incubation & Innovations).

Soon he started to form a team for which he himself **conducted multiple Interviews with highly experienced Engineers**. And so he led his feet towards becoming and acting as a **Head of his own (R&D) Research & Development Programs**.

Later he realised that turning an engineering breakthrough into a successful business was a huge challenge for any young inventor. Realizing he needed to protect his creations, Mr. Oza pursued a 3 - month **course on IPR - Intellectual Property Rights (led by multiple highly trained & Experienced Advocates)** at **i-Hub** right after his graduation in 2020. This wise move gave him a very deep

understanding of IPR & its rights due to which he has currently **filed 9 different IPRs** which strategically protects his creative ideas & his technologies.

- **The Struggles, the Pivots, & Government Backing (2020 - 2024):**

Finding funding for an automotive hardware startup is notoriously tough, but **Mr. Oza began pitching steadily to incubation committees**. His first breakthrough came when **ICSII - Indus Center for Startups, Incubation & Innovation**, was newly established. And he became one of the first entrepreneurs to receive the early stage fundings.

Soon after he received Mentorship from **GUSEC - Gujarat University Startup & Entrepreneurship Council**. Then in 2023 **SUSEC - Saurashtra University Startup & Entrepreneurship Council** also decided to fund his project by providing 2 different grants.

Later in 2023 Mr. Oza **Registered & Founded** his company with an ambition to make an **Hyper Performance Automotive Vehicle Manufacturing company** known as [Oza Motorsports Pvt. Ltd](#)

However in 2024 after almost 1.5 Years of Pitching to **i-Hub Gujarat** he secured his biggest funding and opportunities as he received a **Non returnable Government Grant of 7,75,000/- INR and an Offer from Belgium Government to Re-locate his company to Brussels**. Throughout his journey, **he managed to secure a total of Six Government Grants**.

With protected technologies and initial funding, Mr. Oza aimed to fill his technical gaps by enrolling in an **MBA program in Innovation & Entrepreneurship at the International University of Applied Sciences in Germany**. However, the demands of building a physical engineering company forced him to make a choice; he dropped out of the MBA program in 2024 to fully commit to his company.

True entrepreneurship involves knowing when to pivot or turn down offers that don't fit a company's vision. With **great determination and confidence in his direction**, Mr. Oza decided to **revoke four of those early grants**. However, he skillfully managed the remaining funds, and with the **sum of non-refundable grants** requiring careful expense tracking - to grow his operations, hire

freelancers, and onboard full-time service providers to bring his engine designs & its technologies to life.

- **Higher Achievements & Global Recognition (2025 - Present) :**

By managing a diverse team and establishing a strong corporate structure, Mr. Oza successfully set up [Oza Motorsports Private Limited](#) as a well-organized corporate entity in India, with himself acting as the **Founder & Managing Director**.

His entrepreneurial journey evolved into a success story for the regional ecosystem. In 2025, the very organization where he had pitched for a year and a half, [i-Hub](#) invited him again, not to assess him, but to share his **Success Story & Entrepreneurial Experience & inspire the next generation of founders**.

Other than Government grants he also **secured support from various Organizations, Mentors & Industrial Experts across India**.

Today, Mr. Oza stands at a significant global crossroads. The technical and commercial success of **Oza Motorsports Private Limited** has attracted international attention, leading to a **formal offer from the Government of Belgium to relocate his entire company from Ahmedabad, India, to Brussels, Belgium** signifying his shift from a **local engineering student to an internationally recognized Automotive inventor**.

Achievements: 19

- Completed Diploma in Automobile Engineering with **First Class Distinction**.
- Successfully pursued internships with five major automotive giants – **Mercedes-Benz, Honda, MV Agusta, Benelli & Hyosung**.
- Completed **B.Tech in Automobile Engineering** with **First Class Distinction**.
- Designed and developed **the SE1**, his first hybrid **Bobber–Brat Style** motorcycle featuring the innovative BobArt design philosophy.
- **Registered the SE1 (BobArt) motorcycle design under the Designs Act, 2000 (Intellectual Property Rights)**.

- Conceptualized and engineered the [V.ODNE1s High-Performance Engine Platform](#).
- Designed multiple conventional and innovative **high-performance V-Series engine architectures** under the [V.ODNE1s platform](#).
- Introduced a proprietary **V-engine design** methodology supporting cylinder configurations in **multiples of three**.
- Designed **two automotive-themed Studios & Offices** based on his own creative concepts.
- Became one of the first from his college to receive the SSIP (Student Startup & Innovation Policy) **Government Grant through ICSII** (Indus Center for Startups, Incubation & Innovation).
- Conducted multiple interviews with **highly experienced engineers** while establishing his own Research & Development team.
- Completed a specialized **course in Intellectual Property Rights (IPR)** at **i-Hub** under highly experienced advocates.
- Registered **9 Intellectual Property Rights (IPRs)** protecting his automotive innovations and technologies.
- Secured **6 Government Grants** from leading startup and innovation bodies recognizing the technical potential of his automotive research.
- Received a Non-Returnable **Government Grant of ₹7,75,000** from i-Hub Gujarat.
- Led the development of the proprietary [LTB Valve Technology \(Camless Valve Mechanism\)](#).
- Under his leadership, guidance, and technical supervision, **Oza Motorsports became one of only two automotive companies globally to own a Camless Valve Mechanism**.
- Received an official **relocation opportunity** from the **Government of Belgium** to establish Oza Motorsports in **Brussels**, reflecting international recognition of his innovations.
- Invited by **i-Hub Gujarat** to share his entrepreneurial success story and inspire the next generation of entrepreneurs.

Group - B:

Primary - Sales & Marketing Industry

Secondary - Automotive Industry (The Sales & Marketing was been done in the Automotive industry)

Title - *The Hustle - From a 16 year old Teen Broker to a renowned Superbike Dealer.*

Explanation - *how he started as a broker and became one of the most renowned sales executives and marshall.*

Niches:

- *Broker*
- *Dealer*
- *Insurance Consultant*
- *Sales Executive*
- *Marshal*

• **The 16-Year-Old Superbike Broker Who Couldn't Ride:**

Long before earning his engineering degree, Mr. Oza started his **career in premium automotive sales at just the age of 16**. He entered into the premium Pre-owned Superbike market as an independent broker, facing a unique challenge of being too young & didn't know how to ride a motorcycle.

Despite this, he successfully **sold his first superbike, which was a Benelli 600i**. Over the following years, he continued facilitating the **sale of numerous motorcycles, strengthening his industry network while developing extensive technical and market knowledge**. . This early success showed that his natural understanding of consumer behavior, sales tactics, and market value could overcome physical limitations. This experience built his reputation as a **young but reliable premium Superbike Seller actively navigating the superbike market**.

- **Scaling from a Broker to Dealer:**

As his network expanded, Mr. Oza grew from a young broker to a **well-known premium pre-owned superbike dealer**. Over the years, he developed a **wide portfolio, mastering the specific sales, valuation, and insurance consultation skills needed for global brands**. His sales efforts & his networks successfully handled inventory from the world's most recognizable manufacturers.

He didn't just sell bikes; he learned about the technicalities, the features, the advancement, the machinery & even **how premium dealerships operate**. He later added **insurance consulting** to his skill set, **protecting high-value Superbikes** & other investments for a careful elite clientele.

- **Sales Executive & Marshall at the BMW Motorrad:**

While building his reputation as a **premium superbike dealer**, Mr. Oza's family encouraged him to step into the **corporate world to gain practical experience** of how global automotive giants function.

Coincidentally, when his father took **delivery of a BMW 740Li**, he introduced Mr. Oza to a **BMW Sales Executive** and suggested arranging an **interview with the dealership**.

Unknown to his family, Mr. Oza had already appeared for interviews at **over eight premium dealerships in a single day**, earning **offers from two leading automotive companies**—a testament to his knowledge, confidence, and passion for the industry.

The first selection of Mr. Oza was at **Indian Motorcycle** where he applied as a **Sales Executive**. However they wanted Mr. Oza to perform certain Tasks & Activities which obviously won't have come under his Job role. After listening to this he decided to immediately refuse the offer as it could have become a threat for the **name and value he has created by his hard work**.

Jawa Motorcycles (Classic Legends Pvt. Ltd.) presented a more compelling opportunity. As the brand was **undergoing a major revival in the Indian market**, Mr. Oza saw it as a chance to be part of a **transformative journey**. The highly competitive environment and challenging responsibilities aligned with his passion for **continuous learning, motivating him to further develop his sales expertise and industry knowledge**.

However, just **17 days later**, Mr. Oza received a **call from BMW Motorrad** inviting him for an interview. Following a **successful interview**, he was offered the position of **Sales Executive**. Recognizing it as the right opportunity to advance his career, he completed the necessary formalities and **joined BMW Motorrad**.

On 22nd February 2021, Mr. Oza joined BMW Motorrad, marking his transition from an **independent premium superbike dealer to the corporate luxury automotive industry**. Over the course of 15 months, he was entrusted with one of **BMW Motorrad's key territories Gujarat as one of only four Sales Executives**. Combining technical expertise with a customer-first approach, he generated **69 bookings and completed 64 successful retail deliveries**. His consistent focus on excellence, professionalism, and customer experience resulted in an outstanding **average customer satisfaction rating of 9.8/10**, reinforcing his reputation as a high-performing sales professional within the premium motorcycle segment. This was possible because of **18 Number of Online Training** that he completed, The study & observation he made about the technologies, the work culture, the hospitality, and every other required things that **a Marshall or a sales executive must be knowing**.

Mr. Oza's passion for motorcycling, **in-depth technical knowledge**, and unwavering dedication to excellence earned him an **elevation beyond conventional sales responsibilities**. He was appointed as a **Regional Marshal for BMW Motorrad**, representing the brand across the **Gujarat territory**. In this role, he led official rides, **supervised premium customer events**, upheld global brand protocols, and served as a **key ambassador for BMW Motorrad's rides**.

Soon after, Mr. Oza was offered the position of **Sales Executive at Porsche**. However, because of some ongoing research and developmental work, he could not formally accept the offer.

Achievements:11

- Sold his **first superbike (Benelli TNT 600i)** at the age of 16.
- Established himself as a renowned **Premium Pre-Owned Superbike Dealer**.
- Built a strong network within **India's premium superbike community**.
- Specialized in the sales and valuation of **luxury motorcycle brands**.
- Received **3 major job offers** from automotive giants.
- Successfully **retailed 64 BMW Motorrad motorcycles**.
- Achieved an outstanding **9.8/10 Average Customer Satisfaction Rating**.
- Completed **18 BMW Motorrad Professional Training & Certification Programs**.
- Became one & **only Marshal of BMW Motorrad for the Gujarat Region**.
- Received an offer for the position of **Sales Executive at Porsche**.
- Became one of the

Title - *From getting influenced to Influencing Everyone.*

Explanation - *How Mr. Oza became an Influencer.*

Niches:

- Script Writer
- Dub Artist
- Chief Video Editor
- Director
- Automotive Journalist
- Youtuber
- Influencer
- Podcaster

• **The journey from Engineer to Automotive Journalist (2020):**

*In 2020, Mr. Oza completed his engineering degree. After which he along with Mr. Heer Oza founded [TFS \(The Flying Shirt a Youtube Channel\)](#) with a motive to prevent any type of paid piracy or promotions & create **highly informational & qualitative automotive content** and so his journey as an professional **Automotive Journalist, Content Creator, & Youtuber** started.*

*Soon after Mr. Krish Bhrambhatt joined the channel and right after the discussion of all 3 of them the demand of a well drafted and structured script arose. And so Mr. Oza was now under pressure and needed to create a **script** which meant he did not only have to be on the screen but also had to function as a **Script Writer**.*

*Mr. Dhairya N. Oza & Mr. Heer N. Oza took the responsibility to create & elaborate a **highly engaging review structure for superbikes**. While Mr. Heer Oza focused on mastering **Cinematography, Graphic designing, and Video***

editing, Mr. Dhairya N. Oza concentrated on refining the creative vision by developing review concepts, enhancing scripts, and introducing innovative storytelling elements. As the production quality evolved, he naturally expanded his role to become the **Director and Senior Video Editor**, playing a key role in shaping the visual identity and content style of **TFS**.

As **TFS** continued to evolve, Mr. Oza recognized the **importance of delivering a premium audio experience**. He introduced **professional voice-overs and dialogue dubbing**, significantly enhancing the overall quality of the content. To further elevate the production value, **Mr. Dhairya N. Oza & Mr. Krish Bhrambhatt** established an **in-house music production and audio mixing & mastering workflow**. Leveraging his prior experience as an **underground lyricist & composer**, along with his creative vision, **Mr. Oza** took on the role of **Music Director**, overseeing the **musical direction and audio identity of TFS**.

With literally zero experience & starting completely from scratch this 3 took almost 9 months to create their very [1st Motorcycle review which was on SE1](#). The review was praised by many but initially didn't touch the highs / No. of Views But obviously it satisfied their souls.

- **Content Creation & Building an Audience:**

The special combination of dual roles of Mr. Oza, that of **someone who understands the engineering physics of an engine** very well as well as **someone who is charismatic on screen** was instrumental in **TFS** gaining **popularity**. He turned out to be an **Influencer** among the **Indian bikers**, one who could be relied upon to analyze the performance of major international brands.

He & Mr. Heer N. Oza Created **in-depth reviews** of various Motorcycles & collaborated with Multiple international brands such as **BMW Motorrad, Triumph, Kawasaki, Jawa, & KTM**. In 2023 he also made a Documentary on India's biggest Motorcycle Event "**The India Bike Week**" & Collaborated with **versatile companies who were either making Motorcycle Riding Gears or High Performance Accessories**.

- **Transitioning to a Podcaster (Interviewer):**

With **TFS becoming more successful**, Mr. Oza understood that there was much more that the brand could offer besides the short form **Motorcycle reviews**. Thus, he diversified his skills by becoming a **Podcaster**, developing his own show named as **TFT (The Flying Talks)**.

Rather than focusing solely on motorcycles, he began **conducting interviews** with **seasoned industry experts**. This shift required a significant evolution in his communication approach. He moved away from **writing concise YouTube scripts** and instead focused on formulating thoughtful questions and guiding conversations that uncovered deeper insights, facts, and **personal stories**—**aimed at creating engaging, informative, and in-depth discussions**.

Achievements:9

- Created an in-house **Music Production** workflow for the **YouTube channel**.
- Achieved **2.52 Lakh+ Views** on **Social media**.
- Collaborated with more than **21 brands**, including automotive giants such as **BMW Motorrad, Triumph, Kawasaki, KTM & Jawa**.
- Produced a **documentary** on **India's biggest motorcycle event – The India Bike Week**. Where he collaborated with brands such as - **Dainese, Alpinestar Tiivra, Bandidos Pitstop, Big Bad Bikes, Race Dynamics, Rynox, Bluarmor, Triumph, Sena, Harley-Davidson, Kawasaki**.
- Conducted **podcasts** with multiple **well-known personalities** from **Supercars & Superbikes Industries**.

Group - D:

Primary - Content Creation

Secondary - Influencer Industry (because of his Past experience gained as TFS)

Title - *The Creation of [TFS Universe](#) - The Journey of a Creator, Mentor & Business Leader.*

Explanation - *The journey of becoming a Sales trainer, Service Provider, HR, Mentor and Business Leader and finding TFS Universe.*

Niches:

- Service Provider
- HR
- Mentor

• **The Initial Years (2014 – 2020):**

Before founding the [TFS Universe](#), Mr. Oza worked independently across **multiple roles—broker, sales executive, entrepreneur, business owner, service provider, and scientist**—within the luxury automotive industry. Balancing demanding engineering studies with **high-level sales and research and development**, he developed a solid understanding of core business operations, including **B2C negotiations, insurance, asset appraisal, and finalizing transactions**. His time as an independent automotive broker and dealer provided **hands-on expertise in managing capital—practical knowledge** that goes beyond what any academic book could offer.

At the same time, his creative talents began to take shape as he evolved from being an audience member and listener into a **Content Creator, Influencer, YouTuber, and Podcaster**. He took full responsibility for **all stages of production: pre-production planning, filming during production, and post-production tasks like editing, color grading, and audio work**. What began as a single initiative has expanded into **five distinct sub-brands**, marking

the transformation of years of experience—from the original TFS, The —into the broader TFS Universe.

- **The Journey into Business Consulting & Brand Leadership:**

*After establishing himself in both the **independent premium superbike market and the corporate automotive sales industry**, Mr. Oza was approached by the **CEO of a regional dealership representing Jawa, BSA, and Yezdi**. Recognizing his expertise, the CEO invited him to collaborate on marketing initiatives, brand execution, and sales training programs for the organization.*

*Upon Accepting the offer he moved beyond typical showroom retail and became a premium **service provider** for brands like **Jawa, BSA, & Yezdi for Marketing, Brand execution & Sales training**.*

*What began as the journey of a **teenage broker** who couldn't ride a motorcycle evolved **into** that of a **strategic business leader, entrusted with developing marketing strategies, executing brand initiatives, and training sales teams for premium motorcycle brands across regional markets**.*

- **The Mentorship and HR Operations (2025):**

*After successfully **delivering sales training and marketing services**, Mr. Oza set his sights on a larger vision—building five distinct brands under a **unified ecosystem** known as the **TFS Universe**. To lay a strong foundation for this ambitious venture, he initiated a structured talent acquisition program in February 2025, **recruiting interns from colleges, institutions, and universities across the region while personally conducting numerous interviews**. This marked his transition into **Human Resources and organizational leadership**. By October 2025, he had established **collaborations with more than 25 universities and received a substantial number of internship applications**. As the organization expanded, the scale of recruitment grew significantly, and by **May 2026**, Mr. Oza had received hundreds of applications and personally **interviewed over 400+ candidates**. This rigorous selection process enabled him to build a **highly capable team** of creative and technical professionals, forming the foundation for the **continued expansion of the TFS Universe**.*

Today, Mr. Oza stands as a **mentor, business leader, and ecosystem builder**. Through TFS Universe, he **provides corporate internships and mentorship opportunities to aspiring professionals**, enabling them to learn the systems, processes, and work culture he has spent over a decade building. His objective is not only to train individuals, but to **develop industry-ready professionals** equipped with the technical expertise, creative mindset, and professional discipline required to excel in the modern business world.

By building this ecosystem, Mr. Oza aims to **cultivate a long-term team aligned with his vision, working style, and values**. His extensive experience in **Human Resources** and **talent acquisition** has provided him with a **strong understanding of human psychology and behavioral dynamics**, enabling him to assess talent effectively, anticipate professional challenges, and make strategic decisions that contribute to **sustainable organizational growth**.

- **Combining Content, Art & Logistics under TFS Universe:**

To ensure everything works better, Mr. Oza created TFS Universe, which will be the holding numerous Sub-brands:

- **TFS (The Flying Shirt)** - The original flagship brand that continues to hold true to its promise of delivering reviews, podcasts, & event coverage for top-of-the-range motorcycles.
- **TFS Film Works** - Managing & Handling the Pre-Production (planning), Production (filming), and Post-Production (editing, color correction, & sound), Web Development & Software Development.
- **TFS Media Works** - Performance-driven digital marketing agency that offers performance marketing services and branding strategies for clients.
- **BuyItOnline** - A dropshipping & E-Commerce business that has 780+ Products under categories like B2C, B2B & Major Platforms like Flipkart, Meesho & Amazon.
- **Soochh** - An artistic name of Mr. Oza Under this name, he conceptualizes, writes, composes, directs, and performs his original songs, bringing together creativity, emotion, and artistic excellence.

Achievements:

- Got Multiple experience with well known personalities.
- Become the HR interviewer and mentor interviewed **400+ candidates** and hired multiple employees, free lancers, service providers, & interns.
- Establish a multi niche company with sub brands.
- Conducted **90+ interviews** in a **single day** at the **UIM Internship Fair 2026** and received an Appreciation Certificate from **Karnavati University** for his contribution to talent acquisition and student mentorship.

- Businessman

E-Commerce & Dropshipping Expertise - BuyItOnline:

As digital commerce continued to reshape the global retail landscape, Mr. Oza decided to **diversify his entrepreneurial portfolio** beyond the automotive industry. He ventured into the world of **E-Commerce & Dropshipping** by launching and scaling his own digital venture, **BuyItOnline**.

Managing a rapidly growing product catalog of over **780+ unique products**, Mr. Oza oversaw the complete operational workflow required to build and scale a successful **E-Commerce and Dropshipping business**. Throughout this journey, he gained hands-on expertise in:

- Developing and managing a complete online shopping platform alongside his team.
- Managing high-volume digital storefront operations.
- Executing performance marketing campaigns to improve conversion rates.
- Handling dropshipping logistics through both domestic and international suppliers.

To further expand the business, **Mr. Oza established BuyItOnline** across India's leading e-commerce marketplaces, including **Amazon, Flipkart, and Meesho**, enabling the brand to reach a wider customer base while managing product listings, marketplace operations, order fulfillment, and **online retail sales across multiple digital platforms**.

This venture marked his successful transition from **offline sales to digital commerce**, establishing his expertise in **E-Commerce, Dropshipping, Marketplace Management, and Online Retail Operations**.

Achievements:4

- Successfully established **BuyItOnline** across leading **E-Commerce marketplaces, including Amazon, Flipkart & Meesho**.
- Established a supplier network with both domestic and international vendors.
- Successfully transitioned from offline sales to **digital commerce** and online retail.
- Developed expertise in **Performance Marketing and Conversion Rate Optimization (CRO)**.

Secondary - Content Creation & Influencer Industry

Title - **From an Underground Artist to Mainstream - Soochh reached to its MANZIL just on his debut.**

Explanation – A decade-long artistic journey that led Mr. Oza from underground music to the mainstream through the launch of his debut album, **MANZIL**.

Niches:

- *Poet*
- *Lyricist*
- *Composer*
- *Singer (Vocalist)*
- *Music Director*
- *Independent Artist*
- *Actor*

The Underground Years & Literary Roots (2014 - 2024):

Mr. Oza's creative journey began long before his **music reached commercial airwaves**. Starting in 2014, during his early high school years, he quietly laid the groundwork as a **poet** and an **underground artist**. For more than **10 years**, this space was deeply personal and introspective.

During this period, Mr. Oza refined his **craft away from the mainstream spotlight, dedicating himself to mastering the fundamentals of songwriting,**

including meter, rhythm, melody, composition, and storytelling. His journey extended far beyond writing lyrics; he evolved into a true **Singer-Songwriter** by developing his abilities as a **Lyricist, Composer & Singer**. Beginning with **analyzing existing songs**, identifying creative shortcomings, and reinterpreting them through his own artistic perspective, he gradually **progressed to composing original melodies** and complete musical compositions. This decade-long creative journey enabled him to transform complex human emotions, experiences, and poetry into structured musical works. The years spent as an **Underground Artist** laid the artistic and technical foundation that ultimately prepared him to also take on the role of **Music Director** for his own projects.

Global Distribution & Mainstream Success:

Once the music was recorded, Mr. Oza applied his **entrepreneurial spirit** to his art. He launched **Soochh** as a dedicated **Artistic platform within the structure of the TFS Universe**. He aggressively scaled his distribution, moving his music from local audio files to a global platform.

- **Digital Streaming Giants:** He became an **Official artist across major digital platforms such as [Spotify](#), [Youtube](#), [YouTube Music](#) & [Apple Music](#)**. Additionally his songs are streaming across **150+ Platforms**.
- **Commercial Outlets:** Beyond digital streams, his tracks secured licensing deals for over **1,250+ physical venues & outlets**, including cafes, restaurants, shopping malls, railways & Much More.
- **Media Partnerships:** He formed an important media partnership with **Okaa FM**, ensuring regular radio airplays.
- Introduced an **Exclusive Release** of Physical Music CD collection featuring the **MANZIL**. The Music CD is now live for Sale under the category of **TEA (The Exclusive Art)** sold on **BuyItOnline**.
- Introduced an **Exclusive Release** of Physical Music CD collection featuring the **Barsaat – The Incomplete Version**. The Music CD is now live for Sale under the category of **[TEA \(The Exclusive Art\)](#)** sold on **BuyItOnline**. **Barsaat – The Incomplete Version**.

The Spark: From a Single Song to "MANZIL" (2024):

In 2024, after a decade of underground exploration, Mr. Oza's was finally ready to go **mainstream**. It all started with the creation of a single soulful track titled

"Har Shaam Ki Tarha". The process of developing this song sparked a significant wave of inspiration, pushing him to turn the single concept into a full, cohesive story.

This inspiration led to his breakout multi-track album, **"MANZIL"**. Mr. Oza took on many roles as a **Singer-Songwriter (Lyricist, Composer & A Singer) Music director, Producer & Chief Video Editor** in the Tracks & Videos by himself. He also ventured into **Visual Storytelling, Scripting, Directing & Acting** to bring the emotional and narrative themes of his **music videos to life**. He is the **true** definition of how an **Independent Artist** should be.

MANZIL (The EP on which he has ever dreamed of & have been working for more than a Decade.) **officially introduced three key musical pieces, forms a beautiful sentence:**

1. **Barson Seh**
2. **Har Shaam Ki Tarha**
3. **Tera Intezaar Rahaaa...**

"Barson Seh Har Shaam Ki Tarha Tera Intezar Rahaaa..."

that tells the complete story of **MANZIL**, making it much more deeper when compared to what any other Conventional music resonates with.

His formal entry into the commercial scene was marked by **"Barsaat - The Incomplete Version"**, a track that defined his shift from an Underground Poet to a Mainstream Artist.

Present Day: Television Broadcast & Integration (2026):

Today, **Soochh** has **expanded to a massive multimedia scale**. Mr. Oza's album, **MANZIL**, got Featured as an **World TV Premier** & has now made its way to **national broadcast media by streaming on Television networks**. In fact it is being streamed multiple times and notably being featured on the **Songdew TV Network**.

What started as a **quiet poetry habit in 2014** has grown into a **fully commercial, self-sustaining artistic institution**. Through **Soochh**, Mr. Oza manages his entire creative line up as an lyricist, vocalist, actor, and music director, blending **genuine artistic expression with Global distribution**.

Overall Skills:

GROUP A – Automotive Industry (20 Skills)

- ***Creative Thinking*** – Demonstrates the ability to generate innovative ideas and develop effective solutions for complex engineering and business challenges. Applies analytical and imaginative thinking to improve products, processes, and overall project outcomes.
- ***Adaptability*** – Quickly adjusts to evolving technologies, industry trends, and changing project requirements while maintaining productivity. Learns new tools, methodologies, and systems efficiently to deliver consistent results.

- **Machine Designing** – Possesses the ability to conceptualize, design, and refine mechanical components and systems using engineering principles. Ensures functionality, manufacturability, reliability, and performance while meeting industry standards.
- **Spatial Visualization** – Exhibits strong three-dimensional visualization skills to interpret technical drawings, assemblies, and product layouts accurately. Enhances design precision by identifying structural relationships before implementation.
- **Scientific Research** – Conducts systematic research by collecting, analyzing, and interpreting technical data to support innovation and informed decision-making. Applies scientific methods to solve engineering and industrial challenges effectively.
- **Innovative Thinking** – Identifies opportunities for improvement by developing creative and practical solutions to existing problems. Encourages continuous innovation while balancing technical feasibility and business objectives.
- **Problem Solving** – Analyzes complex situations logically to identify root causes and implement efficient, practical solutions. Demonstrates strong decision-making skills while minimizing risks and maximizing performance.
- **Project Planning** – Organizes project objectives, timelines, resources, and deliverables to ensure successful execution. Maintains clear coordination throughout every stage while meeting quality and scheduling requirements.
- **Prototype Building** – Develops functional prototypes to validate concepts, test performance, and refine product designs before final production. Ensures practical feasibility through iterative testing and improvements.
- **Quality Control** – Maintains high product and process standards by identifying defects, monitoring compliance, and implementing corrective measures. Focuses on continuous improvement to achieve reliability and customer satisfaction.
- **Leadership** – Effectively guides teams by setting clear objectives, motivating members, and fostering collaboration to achieve organizational goals. Demonstrates accountability, confidence, and the ability to inspire high performance.
- **Presentation** – Communicates technical concepts, project findings, and business ideas confidently through structured and engaging presentations. Adapts communication style according to the audience for maximum impact.
- **Strategic Writing** – Produces well-structured technical, business, and strategic documents that clearly communicate objectives and recommendations. Ensures clarity, professionalism, and alignment with organizational goals.
- **Understanding Human Behaviour & Psychology** – Demonstrates knowledge of human behavior, motivation, and decision-making patterns to improve

communication, leadership, and product development. Applies psychological insights to enhance teamwork and customer engagement.

- **Decision Making** – Evaluates available information, potential risks, and possible outcomes to make informed and timely decisions. Balances analytical reasoning with practical judgment to achieve effective results.
- **Strategic Planning** – Develops long-term strategies by analyzing market trends, organizational objectives, and available resources. Aligns short-term actions with future business growth and sustainability.
- **Business Planning** – Creates structured business plans covering objectives, operational strategies, financial considerations, and growth opportunities. Supports sustainable decision-making through organized planning and analysis.
- **Cost Estimating** – Accurately evaluates project costs, material requirements, labor expenses, and operational budgets before execution. Assists in financial planning while ensuring cost-effective project implementation.
- **Budget Utilizing** – Efficiently allocates financial resources to maximize productivity while maintaining cost control and operational efficiency. Ensures projects remain within approved budgets without compromising quality.
- **Operations Management** – Oversees operational processes by optimizing resources, improving workflow efficiency, and maintaining productivity across projects. Focuses on achieving organizational objectives through effective planning, coordination, and execution.

GROUP B – Sales & Marketing Industry (11 Skills)

- **Communication** – Communicates ideas, information, and solutions clearly and confidently across diverse audiences. Builds strong professional relationships through effective verbal, written, and interpersonal communication.
- **Active Listening** – Listens attentively to understand customer needs, concerns, and expectations before responding appropriately. Uses active engagement to improve communication, strengthen relationships, and deliver effective solutions.
- **Empathy** – Demonstrates the ability to understand and appreciate the emotions, perspectives, and experiences of others. Builds trust and meaningful relationships by responding with compassion, respect, and professionalism.
- **Understanding Consumer Behaviour** – Analyzes customer preferences, purchasing patterns, and decision-making processes to better understand market demands. Applies consumer insights to improve products, services, and marketing strategies.

- **Negotiation** – Effectively negotiates with customers, clients, and stakeholders to achieve mutually beneficial outcomes. Balances business objectives with customer satisfaction while maintaining strong professional relationships.
- **Convincing Customers (Persuasion Skill)** – Influences customer decisions by effectively communicating product value, addressing concerns, and building confidence. Uses persuasive techniques ethically to encourage informed purchasing decisions.
- **Sales Strategy** – Develops and implements structured sales approaches to identify opportunities, increase conversions, and achieve revenue targets. Aligns sales activities with business objectives and customer requirements.
- **Customer Retention** – Builds long-term customer relationships by delivering exceptional service, maintaining consistent engagement, and ensuring customer satisfaction. Focuses on increasing loyalty and encouraging repeat business.
- **Insurance Consultation** – Provides professional guidance on insurance products by assessing customer requirements and recommending suitable coverage options. Explains policies clearly to help customers make informed financial decisions.
- **Teamwork** – Collaborates effectively with colleagues across departments to achieve shared organizational goals. Promotes cooperation, mutual respect, and collective problem-solving in professional environments.
- **Conflict Resolution** – Identifies disagreements objectively and resolves conflicts through effective communication, negotiation, and problem-solving. Maintains positive relationships while achieving fair and practical outcomes.
- **(Repeated yet it will be included. From Group D.)**
- **Customer Support** – Provides timely assistance by addressing customer inquiries, resolving issues, and ensuring a positive service experience. Maintains professionalism while building customer trust and satisfaction.
- **Lead Generation** – Identifies and attracts potential customers through strategic outreach, research, and relationship-building activities. Supports business growth by creating a strong pipeline of qualified prospects.
- **CRM Management** – Effectively manages customer information, interactions, and sales activities using Customer Relationship Management systems. Improves customer engagement, sales tracking, and long-term relationship management.
- **Return & Refund Management** – Handles product return and refund requests efficiently while ensuring compliance with company policies. Focuses on maintaining customer satisfaction through fair and timely resolution processes.
- **Inventory Management** – Monitors inventory levels, tracks stock movement, and ensures product availability to support uninterrupted business operations. Maintains accuracy while minimizing shortages and excess inventory.

- **Product Sourcing** – Identifies reliable suppliers and evaluates products based on quality, pricing, and market demand. Ensures cost-effective procurement while maintaining business standards and customer expectations.
- **Payment Gateway Integration** – Demonstrates knowledge of integrating secure payment gateway solutions to enable seamless online transactions. Ensures reliable payment processing while maintaining security and user convenience.
- **Shipping & Logistics** – Coordinates shipping operations, order fulfillment, and logistics processes to ensure timely and efficient product delivery. Optimizes transportation and supply chain activities to enhance customer satisfaction.

GROUP C – Influencer Industry (14 Skills)

- **Creative Thinking** – Generates original ideas and innovative concepts that enhance content quality and audience engagement. Continuously explores new perspectives to create impactful and memorable digital experiences.
- **Visualization** – Transforms ideas into compelling visual concepts that effectively communicate messages and strengthen storytelling. Demonstrates the ability to plan scenes, aesthetics, and creative direction before execution.
- **Content Creation** – Produces engaging, high-quality content across multiple digital platforms tailored to the target audience. Combines creativity, strategy, and consistency to maximize reach and audience engagement.
- **Script Writing** – Develops structured and engaging scripts that effectively communicate ideas while maintaining audience interest. Ensures clarity, creativity, and alignment with the intended message and platform.
- **Scripting** – Organizes content flow, dialogue, and scene sequencing to create compelling and well-structured digital productions. Ensures smooth storytelling through logical progression and audience-focused communication.
- **Podcasting** – Plans, records, and presents informative and engaging audio content on relevant topics. Demonstrates effective communication, audience engagement, and consistency in content delivery.
- **Story Telling** – Crafts meaningful narratives that emotionally connect with audiences while effectively communicating ideas and experiences. Uses creativity and structure to deliver memorable and impactful stories.
- **Video Direction** – Plans and directs video production by managing creative vision, scene composition, and overall execution. Ensures visual consistency while coordinating performances, camera work, and storytelling.
- **Dialogue Delivery** – Delivers dialogues naturally with confidence, clarity, and emotional expression to enhance audience engagement. Adapts tone, pace, and expression according to the context and intended impact.

- **Dubbing** – Performs voice dubbing with accurate pronunciation, timing, and emotional synchronization. Maintains consistency in voice delivery to effectively match visual performances and character requirements.
- **Music Composition** – Creates original musical compositions by combining melody, harmony, rhythm, and emotion. Produces music that enhances storytelling and connects effectively with the intended audience.
- **Music Direction** – Oversees the creative and technical aspects of music production to achieve the desired artistic vision. Coordinates composition, arrangement, recording, and performance for high-quality musical outcomes.
- **Budget Management** – Plans, allocates, and monitors financial resources to ensure content production remains within budget. Optimizes spending while maintaining production quality and project objectives.
- **Data Management** – Organizes, maintains, and analyzes digital information efficiently to support informed decision-making and content performance evaluation. Ensures data accuracy, accessibility, and effective utilization.

GROUP D – Content Creation Industry (11 Skills)

- **Communication (Group-B)** – Communicates ideas, messages, and creative concepts clearly across digital platforms to effectively engage the target audience. Adapts communication style according to the content format and audience preferences.
- **Customer Support** – Provides prompt and professional assistance by addressing customer inquiries, resolving concerns, and ensuring a positive user experience. Maintains strong relationships through responsive and solution-oriented communication.
- **Lead Generation** – Identifies and attracts potential customers through engaging content, digital campaigns, and strategic outreach. Supports business growth by converting audience interest into qualified opportunities.
- **CRM Management** – Manages customer interactions, inquiries, and engagement using Customer Relationship Management systems. Strengthens customer relationships by maintaining accurate records and personalized communication.
- **Content Marketing** – Develops and distributes valuable content to attract, engage, and retain the target audience. Aligns content strategies with business objectives to increase brand awareness and customer conversion.

- **Inventory Management** – Monitors and manages product inventory to ensure availability and efficient order fulfillment. Maintains accurate stock records while minimizing shortages and operational inefficiencies.
- **Product Sourcing** – Identifies and evaluates reliable suppliers to procure quality products that meet market demand and business requirements. Focuses on cost-effectiveness, quality assurance, and supplier reliability.
- **Marketplace Management** – Manages product listings, pricing, promotions, and performance across online marketplaces. Ensures smooth marketplace operations while maximizing visibility, sales, and customer satisfaction.
- **Landing Page Creation** – Designs and develops optimized landing pages that effectively communicate value propositions and encourage user conversions. Focuses on user experience, clear messaging, and conversion optimization.
- **Payment Gateway Integration** – Demonstrates knowledge of integrating secure payment gateway solutions to facilitate seamless online transactions. Ensures safe, reliable, and user-friendly payment experiences for customers.
- **Shipping & Logistics** – Coordinates shipping processes, order fulfillment, and logistics operations to ensure timely and efficient product delivery. Optimizes supply chain activities while maintaining customer satisfaction.
- **Return & Refund Management** – Handles return and refund requests professionally by ensuring compliance with business policies and customer expectations. Focuses on timely resolution while maintaining customer trust and satisfaction.

GROUP E – E-commerce & Dropshipping Industry (5 Skills)

- **Market Research** – Conducts comprehensive research to identify market trends, customer preferences, competitor strategies, and emerging business opportunities. Uses data-driven insights to support informed business decisions and sustainable growth.
- **Vendor Management** – Builds and maintains strong relationships with suppliers by evaluating performance, negotiating terms, and ensuring consistent product quality. Coordinates effectively to achieve reliable procurement and operational efficiency.
- **Risk Management** – Identifies potential business risks, evaluates their impact, and develops proactive strategies to minimize disruptions. Ensures operational continuity through effective planning and informed decision-making.

- **Conversion Rate Optimization** – Analyzes customer behavior and website performance to improve user experience and increase conversion rates. Implements data-driven strategies that maximize sales and business profitability.
- **Customer Behaviour and Psychology** – Understands customer motivations, purchasing decisions, and behavioral patterns to enhance marketing effectiveness and customer satisfaction. Applies psychological insights to improve product positioning and overall user experience.

Repeated from Group (A and D)

- **Product Sourcing (Group-D)** – Identifies reliable suppliers and evaluates products based on quality, pricing, and market demand. Ensures cost-effective procurement while maintaining business standards and customer expectations.
- **Cost Estimation (Group-A)** – Accurately evaluates material, operational, and procurement costs to support effective budgeting and financial planning. Assists in optimizing resource allocation while maintaining profitability and cost efficiency.

GROUP F – Music Industry (7 Skills)

- **Poetry** – Creates expressive and meaningful poetic compositions that effectively convey emotions, ideas, and experiences. Demonstrates creativity through thoughtful word choice, rhythm, and literary expression.
- **Poem Writing** – Writes original poems with strong thematic depth, emotional impact, and creative storytelling. Utilizes literary techniques to engage readers while maintaining artistic authenticity.
- **Lyrics Writing** – Crafts meaningful song lyrics that combine emotion, storytelling, and rhythm to create memorable musical experiences. Ensures lyrical flow aligns naturally with melody, theme, and audience connection.
- **Singing** – Performs songs with controlled vocal techniques, accurate pitch, and expressive delivery to effectively communicate emotion. Demonstrates confidence, vocal consistency, and musical interpretation across various styles.
- **Acting** – Portrays characters and emotions authentically through effective expression, dialogue delivery, and body language. Adapts performances to suit different creative concepts and storytelling requirements.
- **Directing** – Leads the creative vision of music and visual productions by coordinating performances, production elements, and artistic execution. Ensures consistency, quality, and alignment with the intended concept.

- **Conceptualising** – Develops original creative concepts by transforming ideas into structured artistic visions for music, videos, and performances. Combines imagination with strategic planning to create impactful and engaging experiences.

Repeated From Group-C

- **Story Telling** – Crafts meaningful narratives that emotionally connect with audiences while effectively communicating ideas and experiences. Uses creativity and structured storytelling to create memorable and impactful content.
- **Music Direction** – Oversees the creative and technical aspects of music production to achieve the desired artistic vision. Coordinates composition, arrangement, recording, and performance for high-quality musical outcomes.
- **Music Composition** – Creates original musical compositions by combining melody, harmony, rhythm, and emotion to support artistic expression. Produces music that enhances storytelling while creating a lasting emotional connection with listeners.

TOTAL OVERALL SKILLS: 68
